

## Valentine Page Layout from Paper Wishes

By LeNae Gerig

LeNae's Tip: Use the small stamps included with the Small Love Tree stamp to create a page border. Adding pen work stitches and color to the hearts adds sweet details.

### Supplies:

- Little Prints & Patterns papers
- Small Love Tree Stamp
- 5mm pink crystal stickers
- Acrylic block
- Black inkpad
- Foam tape
- Colored pens: black, red, dark pink and green
- Cardstocks: red, white and black

### Instructions:

- 1) Glue an 8 ½"x12" rectangle of blue cherry paper to the right side of a 12"x12" piece of white cardstock. Stamp the small hearts and "Love" to the cardstock border on the left. Use the pens to color the hearts red or pink with green leaves.

- 2) Ink a 5/8"x12" strip of pink dot paper and glue as a border between the stamped area and the blue cherry paper. Use the black pen to draw stitch lines to the left of the border.
- 3) Stamp the tree in black on a 2 1/2" square of white cardstock. Use the pens to color in the hearts and leaves on the tree. Stamp "Love" to the lower right and use the black pen to draw stitch lines around the square. Mat with red and black cardstocks and foam tape near the bottom of the pink border.
- 4) Mat a 6"x4" photo with red cardstock, leaving a 1/8" wide border and extending the mat on the right to 3/4" wide. Glue a 1/2" wide strip of white cardstock down the center of the extended mat. Stamp a small heart at the top and bottom and color pink. Glue a pink tab cut out to the center with the date. Glue the photo 1" from the top of the page and 1" from the right side.
- 5) Mat two 2 1/2"x3 1/2" photos white red cardstock. Stamp "Love" on 1/2"x1" strips of white cardstock, ink the edges and foam tape them between the two small photos. Glue the photo mat 1" from the bottom and 1" from the right side of the page. Journal on white cardstock, trim and ink the edges. Then glue the strip between the photos, using pink crystal stickers at each corner.
